Giving Effective Presentations

Module 2

STUDENTS' DECK

Activity Rewards!

300 Points

High-performing students in the English ILT activity (Up to 5 Students)

Your effort today shapes your success tomorrow! Stay active, participate, and aim for the top—**300 points are waiting for you**! 🚀

Let’s get started

Basic Structure of a Business Presentation

1. Introduction/Opening

- Who are you?
- Why are you here?

2. Stating Your Aims

- What do you want to talk about?

3. Outlining

- How are you going to deliver it?
- How many points are you going to deliver?

4. Delivering New Information

- What are the essential points to deliver?
- How do we know that your points are valid?

5. Bridging

- How do you move from one point to another?
- What is the correlation between Points 1 and 2?

6. Recap and Closing

- What is the essence of your core message?
- What should we do after this presentation?

Good morning, everyone.

Thanks for coming to my presentation.
My name's Robert Pullin, I'm the Director of Human Resources at DCV Fashions.
My purpose today is to talk to you about our company. You can then decide if you'd like to work for us in the future.

First, *I'll give you* some basic information about DCV Fashions.
After that, *I'll explain* why we've been so successful in the fashion industry.
Next, *I'll tell you* about our mission statement. This describes what we're all about, why we're in business.
And **finally, *I'll explain* how** we communicate with people through our advertising and promotion.

OK, some **basic facts**.

We were founded in Florence in 1990. That's where we're currently based. Since then, we've expanded at a very fast rate and established our brand worldwide. We make and sell clothing and fashion accessories for the 18 to 30 age group.

Please take a look at the chart. It shows our financial performance over a five-year period.

As you can see, last year, our turnover was over 300 million euros and our net profit was around 28 million.

What's the key to our success? Well, I'd say **there are three reasons** we've grown so rapidly. We have a very talented team of young designers. Our distribution system is first class. And we're very creative when advertising and promoting our products.

Moving on now to our mission. It's to be a dynamic company, constantly changing but always leading fashion. Fun, youth, action, energy - this is what our brand is all about. **Finally**, a word about our advertising and promotion. DCV advertises on all the Italian TV networks, as well as those in other major European markets. It sponsors fashion shows, and its products are endorsed by many celebrities in the world of music and sport. Well, I hope you'll be interested in learning more about our company.

Thanks very much for listening to my presentation. **Are there any questions?**

Based on the research you've done, **prepare a 5-7 minute presentation.** Consider using the structure and language in each stage.

aws

Breakout Room 3

Amazon Web Services (AWS)

Head office : Seattle, Washington, USA
Product : AWS offers a wide range of cloud computing services, including:

- Compute: Amazon EC2 (virtual servers), AWS Lambda (serverless computing)
- Storage: Amazon S3 (object storage), Amazon EBS (block storage), and many more.

What problem(s) the company attempt to solve?

- Scalability and flexibility: AWS enables businesses to easily scale their IT resources up or down as needed.
- Cost efficiency: AWS offers pay-as-you-go pricing, allowing businesses to reduce IT costs by only paying for the resources they use.
- Innovation: AWS provides a wide range of services and tools that enable businesses to innovate and develop new applications and services quickly.
- Accessibility: AWS makes powerful computing resources available to businesses of all sizes.

Reasons for success:

1. First-mover advantage: AWS was one of the first companies to offer cloud computing services, giving it a significant head start in the market.
2. Customer-centric approach: AWS is obsessed with its customers and constantly strives to meet their needs and exceed their expectations.
3. Continuous innovation: AWS is constantly innovating and introducing new services and features.

Company values: The principles center around customer obsession, innovation, and long-term thinking.
